DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, 19-34, 51-58, 69, 73, and 75-79, drawn to reserving and allocating session requests, classified in class 709, subclass 226.
- II. Claims 9-18, 67, 68, 71, and 80-83, drawn to sending setup messages between entities, classified in class 370, subclass 395.21.
- III. Claims 35-50, 59-66, 70, and 74, drawn to routers and router operations, classified in class 370, subclass 351.

Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility, such as the reservation of session resources, which may be performed separately from the other inventions. Invention II implements the initiation and use of setup messages between nodes. This teaching may be implemented separately from invention I. Invention III is drawn to the use of routers and implementing router functions. This teaching may be implemented separately from both inventions I and II.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Application/Control Number: 09/871,108

Art Unit: 2145

Applicant is advised that the reply to this requirement to be complete must include an

election of the invention to be examined even though the requirement be traversed (37 CFR

1.143).

Conclusion

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Tanim Hossain whose telephone number is 571/272-3881. The

examiner can normally be reached on 8:30 am - 5 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Jason Cardone can be reached on 571/272-3933. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
